Using 3rd party libraries, Ad-hoc topics

Node.js Accelerator – Jan 23

Agenda

1. Incremental project Q&A

2. Auth0 Q&A

3. Validation with JOI in ExpressJS

4. Validation with class-transformers in Nestjs

5. GraphQL Federation

Node.js Accelerator

Jan 2023

Let's spend a few minutes to Q&A the incremental project

Let's spend a few minutes to Q&A related to Auth0

Let's quickly review how to use JOI in Expressjs with express-joi-validation

Let's quickly review how to use class-transformers in Nestjs (built in)

You can still use other libraries if you would like to, such as Joi

Connecting different GraphQL applications into one can be done with Federation Module.

Let's see a sample on Marcos public github repository

ACTION ITEMS

Week 6

1. We strongly recommend you to explore below module through Udemy this week and learn about Node.js essentials

Module	Topic	Description	Udemy Link	
Self-paced learning on Udemy	Testing	Learn Unit Testing	Click here	1 hrs 42 min
